Dear Ms. Dora Li,

Thank you very much for your email.  
I have confirmed that it will be charged 1200CHF if our manuscript is accepted.  
I think our university, Shimane University, doesn't establish an institutional membership with MDPI.

Also I would like to declare that the contents of [our manuscript is not published anywhere](#) and I don't submit it anywhere until the manuscript is rejected.  
However, I am going to make presentation about a part of the contents next month in a conference (the end of October) in Padang, Indonesia.  
<http://pasca.unand.ac.id/green-dev/>

I do not submit any full-length materials to the conference, but I [have submitted abstract of the presentation](#).  
In the abstract, a part of the contents, that I have written in the manuscript, is included.

In addition, all authors approved to submit this manuscript to the journal.

Do I need to confirm these things in your website?  
If so, please let me know where I should check in your website.  
I could not find the web page.

Dear Aflizar-san,

---

Long time no see!!

How are you doing?

Is everything alright?

As you may know, I am studying about Si dynamics in Solok watershed under Prof. Masunaga's research budget.

Darmawan-san, his students and I have visited Solok since last November and got water samples for Si analysis several times.

I must write a research paper this year and I would like you to be one of my co-authors because you have studied the area and known its situation better than me.

Is it OK?

I have read your research papers and had inquiries about climatic and statistical data.

1. precipitation data in Solok.

Could you get the latest climatic daily data from a office in Solok?

2. Solok statistical data

Could you get the latest statistical data of agriculture and others from the Solok Statistical Agency?

Or
