TITLE: Investigate the Governance Practices of Village-Owned Enterprises in Indonesia

AUTHORS: Irda Rosita and Nurul Fauzi

----- Overall evaluation -----

1. The English of the manuscripts are sound Indonesian-taste English. I recommend author(s) to proof-read the manuscript, since it need to refine English language to native sense.
2. It is suitable to use Investigating rather than Investigate for title
3. How much the aim of this study? If only one aim, use AIM ... is If two, use AIMS...are
