1 SISTEM PERTANIAN TERPADU PADI DAN SAPI Mukhlis¹, Melinda Noer², Nofialdi², dan Mahdi² 1 Mahasiswa Doktoral Ilmu Pertanian Program Pascasarjana Universitas Andalas, mukhlisagus2014@gmail.com 2 Dosen Promotor pada Program Pascasarjana Universitas Andalas ABSTRACT This article discusses the concepts and results of research on **the development of the** region, the concept and the results of research on integrated farming systems, the importance of regional development based integrated farming system, and the implementation of an integrated farming system of rice crops and cattle.

Regional development is very important to encourage the agriculture development, because regional development aims to improve the lives of people such as increasing revenue, increase value-added of processing industry and create employment opportunities. Implementation **of integrated farming systems** in regional development is very important and can be a solution to the various problems that arise in the regional development during this time
