Editor

Reviewer A:

The submitted paper is different from the submitted title. Please send back the manuscript that matches the title of the manuscript.

Reviewer B:

In general this manuscript is quite good and can be published in the IJASEIT journal. Nevertheless there are some things that must be corrected for the perfection of the manuscript including:

1. Synchronize the objectives (which are in the abstract, introduction and method with conclusions.
2. Figure 3 and Figure 4 are suggested that the size of the photo enlargement is the same, so that the reader can more easily understand the comparison of some of the types of coffee discussed.
3. In the results and discussion of B2.cupping test value, please add a reference to the narration (there is no reference)
